PROFILE

Highly motivated Electrical and Computer Engineer with high experience in designing, developing, and testing embedded systems, circuit designs, and software solutions. Proficient in hardware-software integration, and signal processing.

EDUCATION

Addis Ababa University, 2021 – 2025 | Addis Ababa, Ethiopia
Bachelor of Science in Electrical and Computer Engineering 🔗
• One of the **Top 10** Universities in Africa. 🔗
• **CGPA:** 3.75
• **Relevant Courses :** Software Engineering, Databases, Object oriented programming, Data structure and Algorithms, Digital Logic Design, Communication System, Data Communication, Computer Network and Security, Computer Architecture and Organization, Microprocessors and Interfacing, Embedded System, Compiler, Operating System

PROFESSIONAL EXPERIENCE

Ministry of Innovation and Technology, 10/2024 – 02/2025 | Addis Ababa, Ethiopia
Software Developer Intern
• Design and Develop a Planning and Monitoring Website project, contributing to frontend development, data visualization, and real-time progress tracking features to support organizational planning and performance monitoring.

Commercial Bank of Ethiopia, 10/2024 – 02/2025 | Addis Ababa, Ethiopia
Electrical and Computer Engineering Intern
• Worked on IT maintenance, network setup and installation, and troubleshooting to ensure smooth daily operations and system reliability.

PROJECTS

Online Learning Platform 🔗
• Developed a web-based online learning platform with features including user authentication, course management, video streaming, quizzes, and progress tracking to support interactive and accessible education.

Smart Soil Monitoring and Mapping 🔗
• Developed a smart soil monitoring and mapping system integrating Arduino-based sensors with cloud storage, enabling real-time data collection and visualization on an interactive map for precision agriculture.

User profile's Management App 🔗
• Built a Flutter-based user profile management app with full CRUD operations, role-based access control, authentication, and integrated QR code generation and scanning for secure user interactions.

SKILLS

Web and Mobile App Development: Python, Java, React.js, Next.js, MongoDB, MySQL, RESTful APIs, Node.js, Express.js, Firebase, Neo4j, Django, Flutter

Micro Controllers and Embedded Systems: C++, Assembly, LTSpice, Proteus, Matlab, Embedded Workbench, Arduino, Microcontroller Programming, Sensor Integration

Networking and Communication System: cisco networking, network installation, network configurations and troubleshoot connectivity issues.
